Rockets — Soaring High

Our high school years at Goddard have been special to us, each in a different way. We'll cherish forever our memories of football games, assemblies, favorite classes, special friendships and the many other events which made each year unique. Graduation from high school is not an ending but a new beginning. It is a time for Seniors to look into the future and decide for ourselves just what will lie ahead. Although high school is only one of many stepping stones in our lives, we will always carry with us our memories of high school days. These four years of our lives will remain precious to us, for in our hearts we know "we will never pass this way again."
